

# MAGALI SAUDAVEL

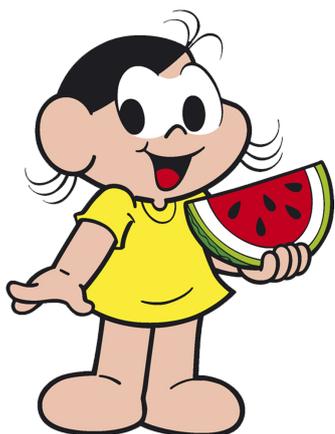

Oi,  
a atividade "Magali Saudável" foi elaborada com muito carinho para auxiliar os profissionais da área da saúde e educação à trabalharem a Educação Alimentar e Nutricional de forma lúdica e divertida.

Essa atividade foi desenvolvida por Marília Andrade, estagiária de Nutrição (uniceub - Brasília).

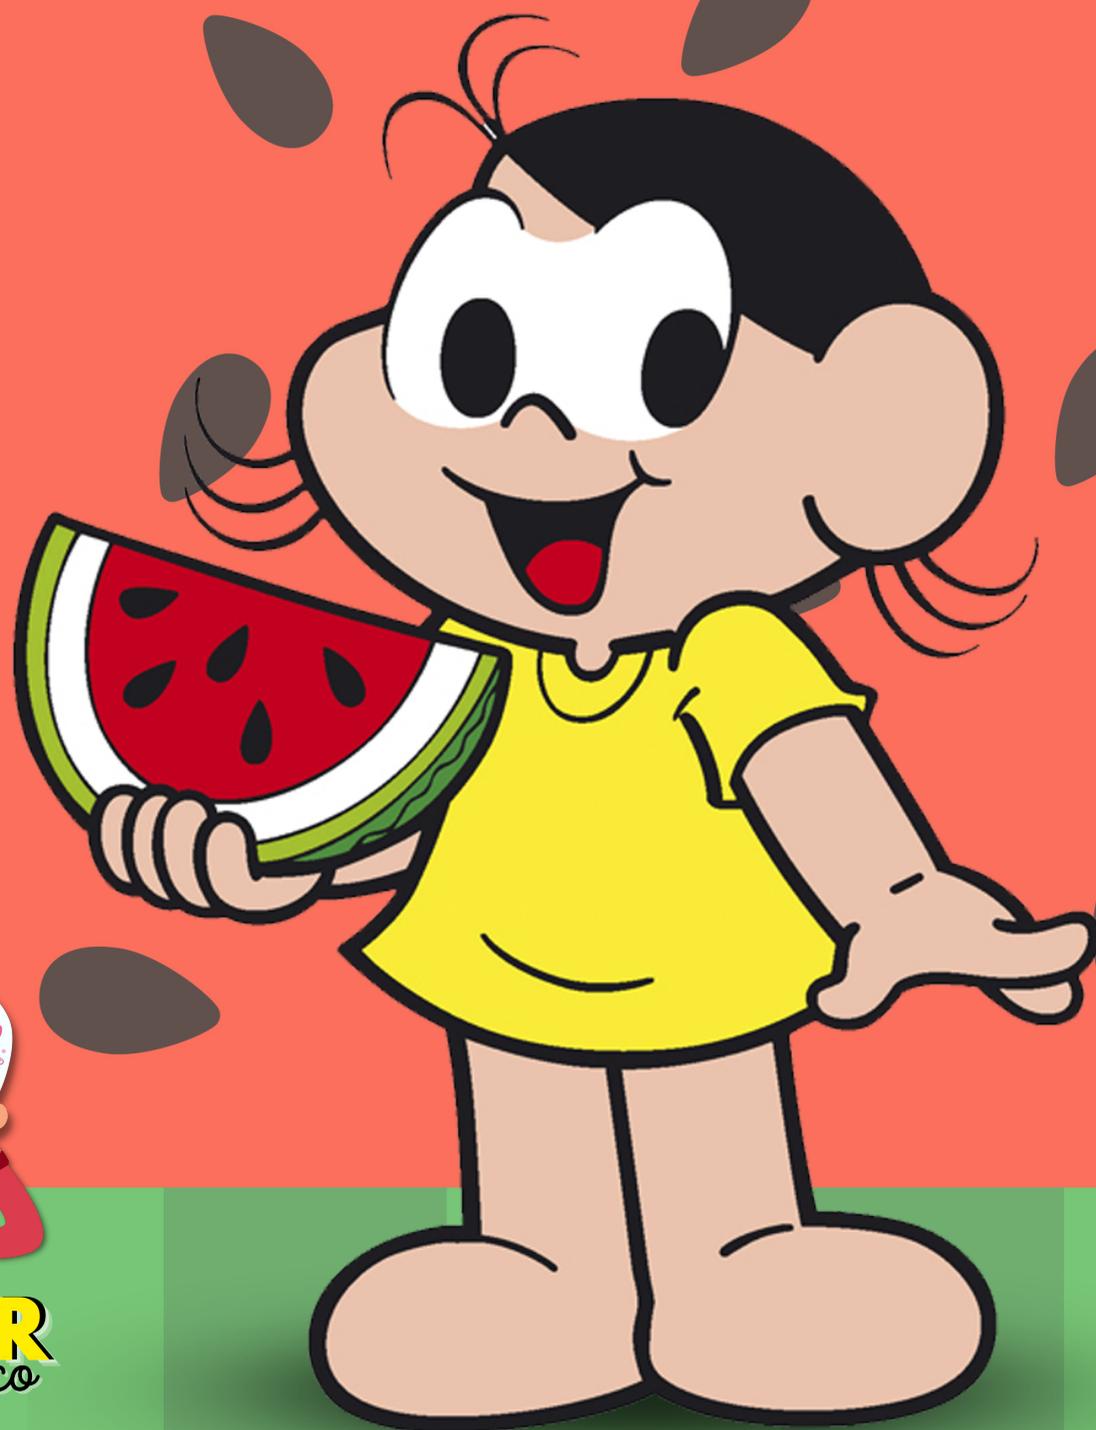

Para aplicar a atividade faça a impressão de todos os arquivos. Monte a Magali em tamanho grande para usar como base da explicação. Os alimentos grandes você vai usar para aplicar o conteúdo da alimentação da Magali, dando ênfase aos alimentos saudáveis e não saudáveis.

Após aplicar o conteúdo, faça a atividade com as crianças usando os alimentos pequenos e o rosto da Magali com a boca aberta. As crianças escolhem quais alimentos saudáveis querem colocar na boca da Magali (cole os alimentos).
